How to connect to Eduroam from Windows 10?

1. In the notification area at the bottom right of your screen click on the Wi-Fi connection icon as outlined in red above.

2. You will then be presented with a list of available Wi-Fi networks to connect to as shown on the left below. From the list of available Wi-Fi networks locate **eduroam**, hover your cursor over it and then click on it. You will then be presented with an option to Connect or Cancel. You will select Connect as outlined in red below. If you do not see eduroam in that list then you are most likely not within range of the eduroam network.
